# WELCOME TO YOUR UNIVERSITY

AU101  
PROGRAMME

## STARTING A UNIVERSITY IS MORE THAN AN ACADEMIC EDUCATION!

· During your studies at Altınbaş University, our faculty and staff will not only make sure you have the very best theoretical and practical knowledge required by the career you have chosen, but they will also ensure that you become equipped with world class skills and abilities of a successful person in this modern age. **This relentless effort of our academic and administrative team will offer you the chance to have a unique university experience.**

· With the AU101 programme, organized by the Altınbaş University Dean of Students Office to facilitate your adaptation to university life, you will familiarise yourself with the Altınbaş Culture while taking a closer look at the life at university from different perspectives.

## ADAPTATION PROGRAMME

### *Peer Coaching:*

Each newly enrolled student is assigned an older peer coach studying in the same undergraduate school. Peer coaches, consisting entirely of volunteers, convey their university experiences to new students and teaches them the spirit of solidarity, which is an integral part of **Altınbaş Culture**, thus each and every new student receives the moral and guiding support they may need in adapting to university life. So, we strongly suggest you take full advantage of your peer coach's teachings and recommendations. From which course to take or where to drink the best coffee in town, you can learn from them anything you want and much more.

## DEAN OF STUDENTS OFFICE AU101

*(Adaptation to University / Altınbaş University 101):*

The essential principle of Altınbaş Culture is to adapt to all novelties and innovations together. In line with this principle, we have prepared the "**Adaptation to University Life**" programme for newly admitted students. The programme is designed to encourage solidarity and experience sharing among Altınbaş students.

Each and every incoming student is required to join the **AU101**, which starts on the first day of the academic year and continues until the end of the first term. At every stage of the programme, student activities and the events in which they participate will be monitored. Remember, your first requirement to graduate is to have an **AU101** certificate. And to obtain this certificate, you need to successfully complete the **AU101 Programme**.

DEAN OF STUDENTS

## ✓ ORIENTATION EVENT:

01.

We believe in the power of good beginnings and that's why we are making sure that our meeting event will be the most special one yet. On the first day of our two-day orientation event, we will meet with all newly admitted students at Mahmutbey Campus. In our "Welcome to Your University" event, our new students will be accompanied by their peer coaches.

We will "welcome" our new students to Altınbaş family at the campus yard with concerts and fun games.

02.

On the second day of the orientation, new students will go to their respective campuses, and accompanied by their peer coaches, they will meet their professors, alumni, and future colleagues.

03.

We have also prepared "administrative orientation" videos so that you can get the maximum benefit out of the orientation event. We will send you the links to watch these videos.

Administrative orientation videos cover many different grounds such as teaching new comers their rights and responsibilities as a university student, how to borrow books from the library or how to select courses. It is essential that you watch these videos before you arrive at the campus. After watching these videos, which are designed to make your university life easier, you can also contact your peer coach to solve any issue that may come up or to find answers to any question you may have.

## COMPLEMENTARY WORKSHOPS

### ADAPTATION TO DIFFERENCES WORKSHOP:

**The most important and characteristic feature of Altınbaş University** is that it is a fully internationalised university. We are nourished by the unique cultures of our students coming from different parts of the world, and we are growing better and better every day. Being a part of this peaceful cohabitation where different cultures are blended into multiculturalism will undoubtedly be among your distinctive life experiences. This two-hour workshop will give you the opportunity to teach your own culture and values to your new friends and get to know their own culture and values in exchange, while discovering how to let differences feed your mind and soul, and in the process, you will be one step closer to your goal of being moulded into a **"global citizen"**.

By taking part in this workshop on the specified dates, all 1<sup>st</sup> year students will be entitled to receive an AU101 certificate.

# Edpuzzle OpenMind Course:

We believe that university education transcends what you merely study in textbooks. Therefore, we want all Altınbaş University graduates to have an intellectual perspective on numerous aspects of life, from art to sports, technology to science. In line with this purpose of ours, we bring **OpenMind**, a discovery and awareness course, to our students by integrating it with distance learning and **Edpuzzle**. As part of this course, we will be expecting our students to choose **ten videos** based on their interests from the video pool during the Autumn Term, and to complete the programme by successfully passing the interactive tests.

## ACADEMIC YEAR 2022-2023 ORIENTATION EVENT BY DEAN OF STUDENTS OFFICE
